

One Row Lace Cowl

Instructions are given to make this cowl using 3 different weights of yarn (heavy lace/sock weight, DK, and aran/worsted).

The finished cowl will have a diameter of approximately 20-21". Your cowl can be made wider or narrower by adding or subtracting multiples of 10 stitches.

To make your cowl flare out slightly at the bottom, start with a slightly larger hook size, and switch to a smaller hook after working a few rows

Gauge

Heavy lace/ sock weight:	1 pattern repeat (10 st) = 2 inches (3.5 – 4mm hook*)
DK weight:	1 pattern repeat (10 st)= 3 inches (4.5 – 5mm hook*)
Aran/ Worsted:	1 pattern repeat (10 st) = 3.5 inches (5.5 -6mm hook*)

**Or hook size needed to give required gauge*
